- Land: 2500m^2
- Distance
  - Beach:30 km. m.

We offer in the town of Hondón de las Nieves in the Rebalso area a fantastic plot with easy access on a high part of a small hill with fantastic views~The plot has approximately 2,500m2 and is ideal to put a wooden house or caravan to spend weekends and recreational days. It has a light pole very close where the connection could be requested and the irrigation water meter just 30 m2 away to be able to connect the water.~It was purchased as an investment to build a small wooden house, but due to work reasons the project has been abandoned and it is being sold. If you are interested and like the tranquility of the mountains, do not hesitate to contact us.~
